RECARO GAMING WINS GERMAN DESIGN AWARD FOR LIMITED EDITION RECARO X PORSCHE GAMING SEAT

STUTTGART, GERMANY, JANUARY 31, 2024 – RECARO Gaming is honored to receive a German Design Award for the Limited Edition RECARO x Porsche gaming seat, a result of an esteemed collaboration between RECARO and Porsche and designed in consultation with Studio F. A. Porsche. This iconic creation blends the thrill of motorsport with the world of gaming, transporting players straight onto the racetrack with its authentic design.

Incorporating the legendary motorsport colors of red, white, and black, and boasting the Porsche emblem on the headrest, the seat simulates the experience of sitting in a real vehicle. Inspired by the actual Porsche motorsport seat, this gaming seat delivers the perfect union of gaming pleasure and back health.

The award-winning gaming seat is designed for the long haul, engineered for multiple gaming laps and ensuring optimum comfort for gamers. Designed and created in Germany, the gaming seat features intelligent elements and ergonomic support for maximum safety. It is composed of superior quality breathable fabrics, innovative 5D armrests with an aluminum carrier, integrated lumbar support, and lightweight metal aluminum foot support.

The legacy of RECARO and Porsche began in the 1960s with the pioneering RECARO seat for the iconic Porsche 911 sports car. The latest partnership in gaming chairs is a reflection of this enduring relationship, producing a product that exemplifies excellence and premium craftsmanship.

"It's an honor to receive a German Design Award, a testament to the special connection between RECARO Gaming and Porsche, reaffirming our commitment to unparalleled quality standards in performance, design, ergonomics, and overall excellence," said Daniel Behres, Managing Director at RECARO Gaming. "This recognition emphasizes our pursuit of innovation and positions RECARO Gaming at the forefront of the gaming industry."

The German Design Awards set international standards for innovative design developments and competitiveness on the global market. Established by the German Design Council, the award recognizes the industry in all matters consistently aimed at generating an added brand value through design.
